

# Apple in Public Sector

## Social care for older adults

Apple devices and first-party services can empower your aging population to lead healthier lives from home.

Privacy and security,  
built in

Accessibility features to  
support older adults

Long-lasting,  
energy-saving devices

**Stay connected, stay healthy, and stay safe.**

State and local governments around the world are digitally enabling their constituents with Apple devices to help them stay connected to care teams and loved ones.

Los Angeles County Aging & Disabilities Department  
and City of Los Angeles Department of Aging

Together, the LA-area aging agencies provided iPad devices to older adults impacted by the digital divide and at risk of social isolation.

**2500+**

iPad devices delivered to older adults in Los Angeles

Digital inclusivity increased older adults' access to community engagement, healthcare, and social services.
