

# ClickShare

## ClickShare has you covered

### XMS Cloud Management Platform

XMS Cloud is the platform for remotely managing ClickShare devices. It enables IT professionals full device control, proactive intervention and maximum uptime in a secure and effortless manner. Thanks to its ease of use, numerous features, valuable insights and user-friendly interface, XMS Cloud ensures meeting rooms run at their best capacity.

#### What are the benefits of XMS

- One platform to install, configure and manage your ClickShare fleet
- Improved ROI for your ClickShare devices and better adoption rate of your tech stack
- Full security and data analytics to optimize meeting experiences
- Automatic system health stats to ensure prompt intervention and maximized uptime

### SmartCare for ClickShare

SmartCare is a free service package included with the purchase of every ClickShare unit. It provides budget predictability, swift hardware replacement, and expert support for up to 5 years.

The service is activated upon registering the device (within the initial 1-year standard warranty period) and adding it to the XMS Cloud Management Platform.

#### What are the benefits of SmartCare

- Peace of mind and reduced downtime in case of a defect
- Better ROI. Safeguard your investment at predictable cost
- Guaranteed best user experience throughout the entire product lifetime
