TREND MICRO™

Advanced Security Protection with Trend Micro™ Worry-Free™

Your customer is at risk of a security breach. Discover, assess, and mitigate risk and defend against complex cyberattacks before it hits their inbox.

Why upgrade to Trend Micro™ Worry-Free™ XDR

Advanced visibility, control, and protection

Using the most advanced defense techniques, our detection and response capabilities allows you to respond to threats cross-product, cross-customer, and cross-partner environments.

Worry-Free XDR empowers you to:

- Correlate data automatically across email and endpoint in one console
- Automate detection, sweeping, hunting, and root cause analysis
- Scan emails before they arrive in inboxes
- Leverage advanced threat detection through cloud sandboxing
- Employ expanded detection, investigation, and response capabilities

Faster response and recovery

Better insight into threats and visibility into more of the attack surface lets customers identify the source of a problem, stop breaches, and limit exposure. Stay up-to-date with the latest threat protection with no downloads or manual updates necessary.

Keep your customer's information and reputation safe

Prevent cybercriminals from exploiting ransomware, phishing, malware attacks, and other forms of digital threats found in emails.

Need Managed Support?

Let us help you bridge cybersecurity skill and knowledge gaps

- **Detection:** 24/7 critical alerting and monitoring, and IoC sweeping
- **Investigation**: Incident investigation, root-cause analysis
- **Investigation:** Cross-customer analysis for your customer base
- **Response:** Recommendations or authorized actions, incident response plan, and monthly reports

Get started with XDR NFR (not-for-resale) at no cost

It's as easy as 1-2-3:

1. Log into your Licensing Management Platform.
2. Create new Service Plan. Select "Worry-Free XDR" and label this plan "Internal Keys."
3. Check box "Assign as NFR." (This will allow you to deploy up to five licenses for free. You will never be charged for these licenses and will never have to renew).

Cybersecurity protection for:

- Endpoints
- Servers
- Email

Organizations with XDR[1]:

Are better protected

Suffered half as many successful attacks over the last 12 months

Detect quicker

65% of organization with high XDR alignment report dwell times of a few days or less

Respond completely

58% of organization with high XDR alignment detect and respond to threats earlier

We do the hard work; you get peace of mind
