

Your TD SYNnex Data, Now in Teams.

Access **mission-critical information** instantly, directly within the tool you use every day. The Digital Bridge Microsoft Teams Plugin brings real-time data and updates to your fingertips, simplifying your partnership with TD SYNnex.

Features That Empower Your Productivity

Easy Install

Install directly in Teams from Microsoft AppSource with your TD SYNnex credentials.

Find Contacts

Instantly find and connect with your TD SYNnex team via email, phone, and Teams chat.

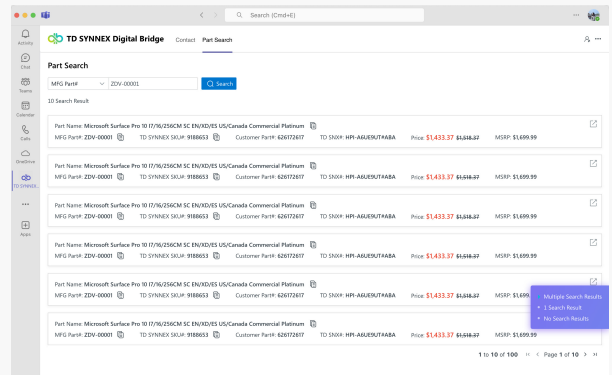

Price & Availability

Find SKUs by MFG Part# and view pricing, promos, availability, and logistics in real time.

Order Status*

Quickly find orders by PO# or customer info. Access status, totals, invoices, and shipment tracking.

*Coming Soon: This feature is on our roadmap and not available in the initial release.

Integrate Your Tools & Platforms Seamlessly With the Digital Bridge Marketplace

Effortlessly connect the tools you trust—like Teams, Salesforce, HubSpot, and more—to TD SYNnex services. Pre-built integrations deliver real-time data and workflow automation, so you can focus on growth instead of managing complexity.
