
RenewSolv

RenewSolv Delivers

TD SYNnex RenewSolv is a free value add, online tool available for our partners. RenewSolv simplifies the process of selling services, warranties and renewals by providing proactive sales opportunities directly to our reseller partners in their RenewSolv dashboard. With RenewSolv automation, we deliver quotes and opportunities throughout the product lifecycle enabling our partners to retain ownership of their customers and drive more services and renewal revenue.

With the launch of RenewSolv 2.0, we separated the opportunity types making it simple, faster and even easier for our reseller partners to access, download and offer quotes to their customers.

RenewSolv 2.0 delivers the following additional benefits:

- Quick access to your quotes with two easy clicks of your mouse
- Enhanced download and advanced search features
- Separation of service attach opportunities from renewals
- A new feature in RenewSolv - "Load Your Opportunity" allows our resellers partners to load any of their expiring data, schedule notification dates and keep track of all their renewal opportunities.
- For resellers and vendor partners, a "Quick Load" feature allowing resellers our renewals team to quickly load expiring data and set notification dates. The Quick Load tool delivers proactive opportunity leads to the resellers RenewSolv dashboard. Resellers will receive notifications on expiring opportunities and have direct access to all their data in the dashboard.

Gain access to recurring revenue automated proactive quotes from these leading IT vendors:
