Destination AI Practice Accelerator

Accelerate Your AI Business

Want to learn more about artificial intelligence (AI), so you can grow your AI customer base? You're in luck. Intel, partnering with TD SYNEX Destination AI, is ready to take you on an accelerated journey that can enhance your business. It's called the Destination AI Practice Accelerator.

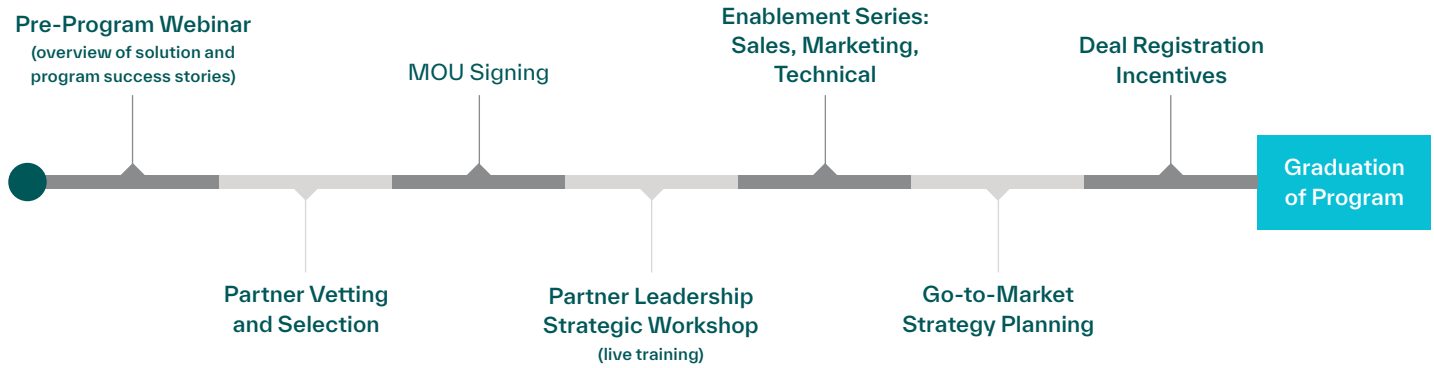

This hands-on, fast-paced program is designed for partners who are committed to excellence, improving their skill set and ensuring the scalability of fully integrated solutions. The Destination AI Practice Accelerator offers its partners a wide range of tools, assets and incentives to get their business off to the best possible start.

Program Benefits

- **In-depth practice growth strategy workshop** and thought leadership for partner leaders.
- **Enablement series** for your sales, technical and marketing teams.
- **Competencies and badges** to enhance your profile.
- **A hands-on approach** to help you succeed.
- **Discounts and incentives** to kickstart your business.
- **Recognition and certification** to boast your new skill set.

6-Week Program Timeline

Feedback From Partners

“This was really good...I’m responsible for everything cloud, but now I’m excited about AI...the sales planning tool is a resource I plan to leverage with my entire team!”

- **Kevin Kohn** | Vice President of Cloud & DevOps, e360

“We were making a lot of guesses; this really helped us. As we build out our AI practice, I will be reaching out for help and guidance.”

- **Sunil Mallath** | Senior Director, AI & Analytics, Princeton IT Services
